Boarding Services

The Goddard Veterinary Clinic is proud to provide pet boarding services. If you are planning a vacation or an extended weekend away, do not hesitate to schedule your pet's stay. We provide you with peace of mind while you are out of town. Our caring, professional staff members will ensure that our guests have fresh food and water each day and that his or her bedding is clean. We also have elevated cots available for our canine friends as well as "cat condos" for our feline friends.

Our boarding facility is climate controlled. During warmer weather, dogs will be indoors enjoying air conditioning and during the winter months, they will be indoors with the warmth of the heater. Weather permitting, we do allow dogs to come/go in their own individual run.

Another advantage of boarding at the Goddard Veterinary Clinic is that we have trained veterinary staff who can recognize the signs and symptoms of illness. If your pet appears sick, we will notify you immediately, and our veterinarian will examine your pet to determine the cause of the illness. If treatment is required, we will call you with options that allow you to determine the best course of action.

Special diets can be accommodated if supplied and the use of refrigeration and microwave is available if needed. We offer Hill's Science Diet quality pet food for those pets not on a special diet. If your pet is on any medications, please bring them with your pet. There is no additional charge for medication administration.

All pets must be up-to-date on their vaccinations prior to boarding. However, if your pet is due for vaccinations please call our office at 316-794-8022 and speak with one of our client care representatives for more information.
